The Gent's Pul-syn-etic Master Clock

Donald Jackson bought this master clock in Christchurch, New Zealand in 2006. The clock was made in England and looks like a short case wall mounted clock but has no weights. It operates easily and accurately as long as current is

constant. The pendulum is adjusted to 1 sec for 1/2 cycle. The hands move in 1/2 minute intervals or 2 moves per minute. This clock could operate up to 12 slaves clocks. A programmer can be added to sound a bell or siren.

Sonora's Showing Off

There were 6 Sonora Chime clocks for show .

The top left belongs to Ed Ueberall, is an 8 bell.

Top right, also an 8 bell belongs to Donna Kalinkiewicz, as does the 4 bell pictured lower left.

The lower right is also a 4 bell belonging to Kent Singer.

2 others not pictured were a 5 bell belonging to Richard Johnston and an alternating 8 bell, also belonging to Donna Kalinkiewicz.

MINUTES OF NAWCC MEETING, OCTOBER, 2007

The October meeting had an extra large show of clocks and watches. After our usual and always exciting auction, the meeting was called to order by President, Carol Tekippe. Our guests and new members were introduced.

Bob Booth gave the Treasurer's report.

Bernie Tekippe introduced John Thompson, a new clockmaker. John's clock is pictured to the right.

Chris Brown introduced Donald Jackson, our speaker.
