Treasurer's Report

By Gary Walton

Sixty three members attended the August Chapter Meeting. In addition, we welcomed seven guests-- Minnie and Douglas Brown, Ron Spearman, Ken Sutz, Beth Baker (guest of the Hogwoods), and Vicki and Wendell Willard (guests of Brooks Coleman). The Browns and Willards became new members.

Bill Wiggins was the lucky prize winner.

We received donations of items which were sold at auction for \$76 as well as an additional \$50 in cash donation. Many thanks to each of you who donated. Donations (and prize drawings) keep membership dues as low as possible.

Speaking of membership dues--while some have just paid 2013 dues, it's time to start thinking about 2014 dues. (I sound like a preacher, don't I, always begging for money?) Why now? --to get it over with (and for me to quit hounding you) and because some of the Chapter's largest expenses are due near the end of the year and the beginning of the year. Items such as facility rental and insurance. So Git-R-Done.

SHOW AND TELL/THE FIRST ONE

Warren Brooks showed an Ithaca “Home” Calendar Clock from 1888. It is entirely original, including finish and paper. Similar clocks have sold at auction for as much as \$2150. This model is not referenced in the Ithaca catalog, and an expert has deemed this one to be very rare.

Hans Rupf showed the first clock for a watch person (himself). This is a movement that he made while working with Bernie Tekippe, and its beauty, for Hans, lies in its accuracy. The movement is serial number 25.

Michael Klevickis showed an 8-day, spring driven automobile clock dating from 1913. Unlike current automobile clocks, such vintage items were an accessory added after the car’s production. In addition, the relative cost of the clock in relation to the car was a much larger percentage of the total cost as compared to contemporary cars and their clocks.

SHOW AND TELL/THE FIRST ONE

Ken Hogwood brought a true traveling clock that predates the carriage clock. This is a Paul Garnier design from circa 1830 and has an 8-day movement with time and strike on a bell. It was machine made with interchangeable parts, and was both made and sold in Paris. It is a very early model with serial number 164. Ken purchased this clock in Australia, making it a very well traveled clock indeed.

Danny Lambert showed a book entitled "Masterpieces of the Time Museum. It was a 1999 auction book.

Museum in Rockford Illinois

Sold museum pieces.
